MISCELLANEOUS ITEMS. Grant has shown that the pen is not might

ier than the sword. One New York concern this year publishes 432 varieties of valentines.

Ina Hillgen, a Swedish maiden, is said to excel Jenny Lind as a vocalist. It has cost nearly three millions of dollars to

supply the national banks with notes. Mrs. "Stonewall" Jackson has received \$15,000 from the sale of the life of her husband.

The Havana lottery, it is said, draws a million of dollars annually from the pockets of the inhabitants of New Orleans. Mr Gladstone, the great English statesman,

is a fine amsteur vocalist, and has lately been singing at a concert in Hawarden. The State Capitol of California has cost up

to the present time \$800,000 in gold, and will require as much more to complete it. The Pope has this year sent to the Queen

of Spain the golden rose, which he blessed, as usual, at the mass on Twelfth Day. The Chicago Tribune says the recent un wonted activity in real estate in that city indi cates an earlier beginning for the spring trade

The wife of a journeyman carpenter in Cincinnati deserted him because he did not buy a house with freestone front and a divorce has been granted him.

At a late meeting of the New York Chamber of Agriculture, it was stated that over 4,286,-000 head of cattle had perished from the rinderpest in England.

Among the effects of a Spaniard who lately died in New Orleans was an account of money spent for lottery tickets at various times, to the amount of \$100,000.

A freedwoman in New Orleans bought a skyrocket, under the impression it was an orn ament for the hair, in which position she wore it until a sagacious urchin touched it off. The last of Wellington's old comrades, Sir

John Burgoyne, has retired from the service at the age of 86. He has been given the rank of Field Marshal, and Parliament will probably continue his pay in the form of a pension. A Parisian left directions before his death

that a copy of one of the Paris morning papers should be placed on his tomb every day. The eccentric request is duly carried out, and on his grave may be seen a heap of musty old papers.

Russia is building many important railways The funds for building are supplied out of the Government treasury, and the shares are also guaranteed by the Government, so that railway investments must be pretty profitable in that country.

The very latest novelty in Paris is a scarf pin in the form of some animal's head, which is connected with an electrical battery carried in the vest pocket. By setting the battery in motion, the eyes of the animal move at the will of the wearer.

William Brandon, in St. Louis, has recovered a verdict of \$1,250 damages against D. J. Jocelyn, a dentist. The plaintiff claims that Jocelyn broke his jaw bone, and otherwise damaged him in the process of extracting some teeth. The dentist has asked for a new trial. Vermont raised fifty-nine thousand pounds

of tobacco in 1866. Wool is now worth so little that many farmers are disgusted with sheep-raising, and are now going into the dairy business. Twenty new cheese factories are contemplated in the State the coming season. There are now on Ward's island, New York,

harbor, one thousand able bodied emigrants living upon the charity of the Commissioners of Emigration. Strong efforts are being made to induce them to settle in the Southern States, for the purpose of supplying the loud call for laborers in that section.

Sheep are wintering in Illinois very well this season, it is announced-a marked contrast with last year. This season they went into winter quarters in fine condition; last season was exactly the opposite. A large and very excellent wool clip may be expected the coming spring.

A movement is on foot in New York, for the call of a National Convention to represent the producing industries of the U.S. It is to be called under the auspices of the "Nationnal Cheap Freight League,"and candidates for President and Vice President, to represent the interests of production, are to be put in

Some laborers employed by Commodore vanderbilt applied to have their time reduced to the eight-hour system. The Commodore ordered their time reduced to seven hours, and paid them pro rata. One of the men wished the Commodore in a very hot place, when another said it would be of no use, for Vanderbilt would have control of the locality in one

week. Renewed persecutions of the Jews are reported in Moldavia. Their houses are burned or torn down, their stores sacked, and their persons horribly maltreated. In some cases they have been obliged to escape secretly to

save even their lives. It is said that the prefect did not even attempt to prevent these outrages. All who attempted to defend the Jews were treated in the same manner.

of the invasion by Bonaparte, but he once declared that he never could discover precisely who was the cause of the burning of Moscow. The Governor of Moscow denied it, and the Emperor denied having ordered it. Mr. Adams's theory was that if the government always on hand. had acknowledged that they caused the fire they would have been obliged to indemnify the

THE ONLY PLACE WHERE A CURE CAN BE OBTAINED.

DR. JOHNSON has discovered the most Certain, Speedy, and only Effectual Remedy in the World for Weakness of the Back or Limbs, Strictures, Affection of the Kidneys or Bladder, Involuntary Discharges, Impotency, General Debility, Nervousness, Dyspepsia, Languor, Low Spirits, Confusion of Ideas, Palpitation of the Heart, Timidity, Trembling, Dimness of Sight, or Giddiness, Disease of the Head. Throat, No e, or Skin, Affections of the Liver, Lungs, Stomach, or Bowels-those Terrible Disorders arising from Solitary Habits of Youth-secret and solitary practices more fatal to their victims than the song of Syrens to the Mariners of Ulysses, blighting their most brilliant hopes or anticipations, rendering mar-

riage, &c., impossible.

YOUNG MEN. Especially, who have become the victims of solitary vice, that dreadful and destructive habit which annually swee, s to an ultimely grave thousands of Young Men of the most excellent talents and brilliant intellect, who might otherwise have entranced listening Senators with the thunders of eloquence, or waked

to estacy the living lyre, may call with full

confidence. MARRIAGE. Married Persons, or Young Men comtempla-ting marriage, being aware of Physical Weak-ness, Organic Debility, Deformities, speedily

He who places himself under the care of Dr. J. may religiously confide in his honor as a gentleman, and confidently rely upon his skill

as a physician. ORGANIC WEAKNESS

Immediately cured and full vigor restored. This distressing affection, which renders life miserable and marriage impossible, is the penalty paid by the victims of impropriety .-Young persons are too apt to commit excesses from not being aware of the dreadful consequences that may ensue. Now, who that understands the subject will pretend to deny that the power of procreation is lost sooner by those falling into improper habits than by the prudent? Besides being deprived of the pleasare of healthy offspring, the most serious and destructive symptoms of both body and mind arise. The System becomes deranged, the Physical and Mental Functions Weakened, Loss of Procreative Power, Nervous Irritability, Dyspepsia, Palpitation of the Beart, Indigestion, Constitutional Debility, and Wasting of the Frame, Consumption, Decay and Death.

DR. JOHNSON, Member of the Royal College of Surgeons London, Graduate of one of the most eminent Colleges in the United States, and the creater part of whose life has been spent in the hospitals of London, Paris, Philadelphia, and elsewhere, has effected some of the most astonishing cures that were ever known, many troubled with ringing in the head and ears when asleep, great nervousness, being alarmed at sudden sounds, bashtulness, with frequent blushing, attended sometimes with derangement of wind,

were cured immediately. TAKE PARTICULAR NOTICE. Dr. J. addresses all those who have injured themselves by improper indulgence and soli-tary habits, which ruin both body and mind.
